the standard dissolution testing conditions described herein. F. Excipients . Excipients chosen for drug product formulation should be consistent with the design of IR drug products.

### **Dissolution Testing and Acceptance Criteria for Immediate**

release. The dissolution test's ability to show changes in so many parameters is its power and its frustration. The power of the test outweighs the frustration for one simple reason: the dissolution test is the only test that has some degree of relevance to the drug's therapeutic effect in vivo. Eliminating dissolution as an end-product test
