For historic properties it is critical to understand what spaces, features, and finishes are historic in the building, what should be retained, and what the realistic heating, ventilating, and cooling needs are for the building, its occupants, and its contents.

### **Heating, Ventilating, and Cooling Historic Buildings**

Using a heating pad during pregnancy to ease lower back pain, sore muscles, or aching joints won't harm your baby because moderate heat applied to just one area of your body won't raise your overall core body temperature.. Pregnant women are advised not to use hot tubs and saunas during early pregnancy (or to limit their use to 10 minutes or less at a temperature of 102 degrees F) because ...
