TABLE OF CONTENTS . PREFACE. THE gracious reception given to my several reports of field studies among primitive racial groups and the many requests for copies of those brief reports and for further data, together with the need for providing interpretations and applications of the data, have induced me to consolidate my investigations. There have also been many requests from my patients and ...

A database is an organized collection of data, generally stored and accessed electronically from a computer system. Where databases are more complex they are often developed using formal design and modeling techniques. The database management system (DBMS) is the software that interacts with end users, applications, and the database itself to capture and analyze the data.

SFPark is a Web site where users can look at a map of San Francisco to see where parking is available and at what price. Parking prices are incrementally raised or lowered in SFPark pilot areas based on demand. In this application, static data on existing parking spaces is combined with changing data about where people park the most, which is measured by parking sensors.
