The rise of small-scale, portable electronics and wearable devices has boosted the desire for ways to harvest energy from mechanical motion. Such approaches could be used to provide battery-free power with a small footprint. Kim et al. present an energy harvester made from carbon nanotube yarn that converts mechanical energy into electrical energy from both torsional and tensile motion.

The File Transfer Protocol (FTP) is a standard network protocol used for the transfer of computer files between a client and server on a computer network.. FTP is built on a client-server model architecture using separate control and data connections between the client and the server. FTP users may authenticate themselves with a clear-text sign-in protocol, normally in the form of a username ...

No Beginning Chain Granny Ripple Afghan - The first row of an afghan with homespun or bouclé or other knobby style yarn can be frustrating. This afghan does not require finding chain stitches, even for the first row. This pattern was designed to be easy for homespun or bouclé style yarns, but it can be made with just about any yarn. Make it in a solid color or with as many color changes as ...
